

A New Day for Center Mount Leg Support Users.

Listening to the theme song of the Netflix show Grace and Frankie (“Stuck in the Middle With You”) got me thinking about **Center Mount Leg Rests** (CML and YES, my children will confirm that my mind IS that strange)

CMLs offer some great improvements over traditional individual legrests:

- Transfer options are often easier;
- Seating can sometimes look and feel more natural; and
- Non-elevating versions are often stronger and more durable.

The Price?

ADDUCTION Fixed or Swing Away – Options?

No more!

Gel Ovarations now offer gel calf pads with adductors!

- Choose the basic width,
- Mount like you would a calf pad, and
- Do final positional adjustment on the Adductor!

The client gets the comfort of a **Gel Calf Pad** AND **fixed or swing-away adduction!** Because we make the **largest and finest line of adductor pads**, all of which can be used with this system, the **choice is yours**. We even offer these with our **Calf troughs!**
