How to Pick Hip Guides

Sta-Rite™ Adjustable Hip Guides (Medial Thigh Support) 3.5" wide

This product will meet your clients needs. With small easy to install mounting hardware, you will find the right place to mount it. Because the pad has a track on bottom, it is easy to position the pad in just the right forward / back position regardless where you mount the hardware.

Up & down is easy, & once set, it stays set. The ability to infinitely move the pad in or out 2" means it's position can grow or shrink with the client. Tighten it down, & it will stay tight thanks to the high surface area interlocking cones. The pad can even be angled in or out if your client needs that. With longer pads, it can be used as a knee button & hip guide. Lift the handle & the unit is easy to remove, pushing down the handle locks everything in place.

	CODE	PAD SIZE	PAD TYPE	PRICE
<input type="checkbox"/>	SRMHG10	3.5" x 10"	Flat GEL	\$ 495
<input type="checkbox"/>	SRMHG12	3.5" x 12"	Flat GEL	\$ 525
<input type="checkbox"/>	SRMHG14	3.5" x 14"	Flat GEL	\$ 545
<input type="checkbox"/>	SRMHG16	3.5" x 16"	Flat GEL	\$ 565

Sta-Rite™ Adjustable Economy Hip Guides 3.5" wide

Though this is our economy model, it has all the features of our regular except the track on the pad. With small easy to install mounting hardware, you will find the right place to mount it. Forward / back positioning is adjusted by placement of the mounting hardware. If that isn't just right, track can be purchased to convert this to the regular.

Up & down is easy, & once set, it stays set. The ability to infinitely move the pad in or out 2" means it's position can grow or shrink with the client. Tighten it down, & it will stay tight thanks to the high surface area interlocking cones. The pad can even be angled in or out if your client needs that. With longer pads, it can be used as a knee button & hip guide. Lift the handle & the unit is easy to remove, pushing down the handle locks everything in place.

	CODE	PAD SIZE	PAD TYPE	PRICE
<input type="checkbox"/>	SRMHE10	3.5" x 10"	Flat GEL	\$ 445
<input type="checkbox"/>	SRMHE12	3.5" x 12"	Flat GEL	\$ 475
<input type="checkbox"/>	SRMHE14	3.5" x 14"	Flat GEL	\$ 495
<input type="checkbox"/>	SRMHE16	3.5" x 16"	Flat GEL	\$ 515

Sta-Rite™ Adjustable Bariatric Hip Guides 3.5" wide

For the client who leans hard, has high tone, or is very heavy. It won't break (or at least we haven't had it happen yet – never say never). With small easy to install mounting hardware, you will find the right place to mount it. Because the pad has a track on the back, no matter where you mount the hardware, it is easy to position the pad in just the right forward / back position. Up / down is easy, & once set, it stays set.

The ability to move the pad in or out 2" means it's position can grow or shrink with the client. Tighten it down, & it will stay tight thanks to the high surface area interlocking crowns with 5° angle adjustment. The pad can even be angled in or out if your client needs that. With longer pads it can be used as a knee button & hip guide. Lift the handle & the unit is easy to remove, pushing down the handle locks everything in place.
