

Gel Ovations™

DEZYNE™ GEL

How do you take an outstanding product and make it even better?

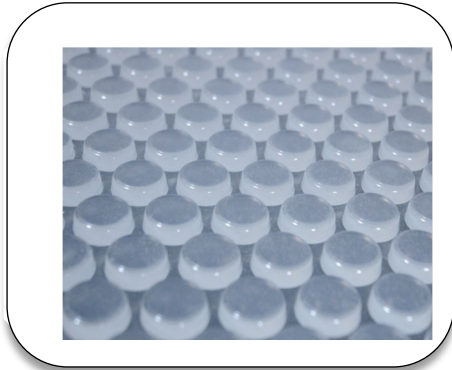

IT'S A MYSTERY

You go back to Basics and look through the lens of experience and technology.

Case in point. We've been distributing GEL pads that can be cut to shape for a myriad of your clinical needs for years with great results.

We think you're going to like our redesigned **DeZyne GEL™** even more.

There are two changes we found to be important:

1. The columns are smaller (3/4" instead of 1") which reduces shear even further and the added channels move more air and reduce moisture build up better
2. The cells on the edge have a "teardrop" shape instead of the prior "cut through" cells and that provides a smoother edging.

Made in Canada, you still get all of the great benefits you've come to love.

- Cuts easily to any size or shape
- The polymer mimics the characteristics of human fatty tissue
- Ultra Low Shear – in any direction as circular shape flows equally in any direction
- Neither heat nor cold will change the softness/firmness of the GEL There is no leakage IF the material is punctured
- Will never rot or dry out, is odorless and hypoallergenic

DeZyne™ GEL now comes in 2 thicknesses .5" thick and the new .25".

Sheets are available in the following sizes:

.5" Thickness
