

Limit-Less Product Sizing Chart

Limit-Less products follow the industry standard sizing set by Body Point. The goal was to make it easy for clinicians to fit clients based on their prior experience. The Limit-Less buckles are truly unique.

Whether in a wheelchair, shower chair, or on the toilet, no one wants to feel insecure, unstable, or unsafe. On the other hand, being restrained in a way that is not possible to self-release doesn't feel good either, and can violate restraint rules.

Our new Limit-Less™ line of magnetic self-engaging buckles for belts and harnesses makes it easier for users to self-release thereby staying on the right side of the anti-restraint requirements while providing safety, stability and support.

Chest Support and Positioning Products with Magnetic Self Engaging Buckles
